

Children in Need

Description

Making a sweet appearance!

default watermark

Anyone that watched BBC NI Children In Need would have seen a Sephra Chocolate Fountain making a sweet appearance. A great choice for both children and adults.

Did you know that chocolate has mood-enhancing benefits? That's right! "chocolate makes you happy! This is due to the fact that it contains a stimulant called theobromine and a compound called anandamide. Just what is need to counteract the sadness of children in need.

What a pleasure to be part of this fantastic cause. You just never know where Sephra will turn up next.
