## FAQs: What Else Do I Need to Know?

### Do I need a [Chocolate Fountain](#) to start a dessert shop?

Not necessarily. [Chocolate Fountains](#) can be a great addition for events or front-of-house theatre, but theyâ€™re not a must-have for your initial setup. Start with core products, and add as demand grows.

### Can I serve all desserts from a small kiosk or trailer?

Yes! [Waffles](#) and [CrÃªpe](#) setups are compact and can be fully operational in small spaces. Many of our customers run successful dessert stands at events, markets, or food trucks with just these essentials.

### How many toppings should I start with?

We recommend starting with 4â€“6 [Topping Sauces](#), plus [Nutella](#). That gives you enough variety to create exciting combinations without overcomplicating stock management.

## Final Thoughts: Start Simple, Scale Smart

Starting a dessert shop doesnâ€™t have to mean buying everything at once. With just a few core pieces of equipment and a solid selection of ingredients, you can launch a menu thatâ€™s easy to
