A BBQ with friends and family always seems to enlighten the spirits, drinking cocktails in the evening sun whilst your tea cooks will always be more appealing than the hustle and bustle of the kitchen. This autumn add a simple twist to your garden party. Toasted marshmallows are an easy solution for a dessert, adults and children love the novelty of toasting there very own mallows.

BE CREATIVE

Toasted marshmallows donâ€™t have to be served at the end of a stick, be creative by topping your cupcakes with them, drizzle them in chocolate, sandwich them within wafers or you could sweeten your juice by placing one on the top of your drink.
